

Accountants in Business

Training for New Hires

Course Overview:

This course is designed for students & fresh graduates from faculties of business who wish to work in the accounting profession, as well as new hires in the accounting departments. The course shows you how to set your career goals, prepare your resume and pass interviews, it also gives general overview about postgraduate certifications.

The course will deliver a practical accounting workshop demonstrating the daily activities of a competent accountant.

After taking this course you will be able to:

- Define your career objectives and setting long term goals for your professional financial career.
- Understand business environments & different types of companies.
- Understand the hierarchy of the financial departments
- Become familiar with financial department tasks and operations
- Develop from student to financial professional.
- Prepare your resumes & pass technical interviews.

AFB Consulting provides its candidates with some of the most successful trainers in town. Our instructors' training expertise and skills have real world experience that can give you a practical understanding of the chosen field.

Venue:

Our venue is located on the cross edges between Heliopolis & Nasr city. Ramo Towers has a large parking area under the mall. Our training venues are selected according to their location, training and refreshment facilities, to ensure that you will learn in a comfortable and convenient environment. The hall capacity is up to 20 attendees.
